GOTHAM'S WHITE SLAVES.

BYEN IN LONDON THE NEEDLE WOMEN ARE NO WORSE OFF THAN HERE.

Two Mombers of Parliament Say the Slaves of Our Tenoments are as Radly Off as the Women Tom Hood Immertalized—The Worst City in the Country for the Women.

The condition of the slaves of the tenements and the slop-shop dens in New York is. by all reliable accounts, worse than that of en emgaged in similar work in anycity in the country. Not only are the wages poorer. but the circumstances in which they are compelled to live are more disagreeble and un-healthy, and the cost of maintaining life is generally higher in New York than elsewhere, It appears, further, that even in London, where for generations the woes of the needle woman have been a favorite theme for sentimentalists and a cause for distress on the part of the tenment house workers are at least no worse, and perhaps are better off than in New York.

The Hon, W. R. Creamer, M. P., now in this country as one of the Commissioners to further the cause of arbitration as a means of settling International disputes, said yesterday:

"The state of the sewing women in London is notoriously bad; in fact, I do not see how it could well be worse, but the state of their New York sisters—Gotham's white slaves, as you York sisters—Gotham's white slaves, as you very patly call them—as shown by The Sun's exposures, is just as bad, and it may be worse. If your women here do average fifty cents a day, as The Sun's says, I imagine the pay rules a little lower in London than here. I do not think London tenement sewers average two shillings a day. But, on the other hand, the cost of living in London is much less than here, so that the purchasing power of the wages, I think, will amount to about the same in both cities. It is plifful, but it is getting steadily worse with us, and will with you. I have no doubt. You think that things are so bad with the sewing women now that they can't possibly be worse; but you're wrong. There is absolutely no limit to the extent to which this grinding down of wages can be carried. Women can support life on a little rice and water, or, if they can't now, they are raising a generation of children who can; and it is to this that they will come unless organization among themselves and a good, solid public sentiment in their behalf make a reform. I have heard The Sun called a pretty good paper, and it can't make a better display of its goodness than in taking up the cause of these miserable women, and in keeping it up, too. Don't drop it." The Hon. Halley Stewart, M. P., Mr. Creamer's associate on the International Arbitration Committee, corroborated Mr. Creamer's statement as to the comparative circumstances of sewing women in New York and London, and added for himself some strong words in behalf of the women.

President Sanuel Gompers of the American

sewing women in New York and London, and added for himself some strong words in behalf of the women.

President Samuel Gompers of the American Federation of Labor, who has travelled largely through the country and has been an especial observer of facts affecting the working classes, gives additional confirmation of the assertion that, so far as this country is concerned, the sewing women of New York are worse paid than those of any other city.

"They live miserably," he says, "but their expenses are comparatively higher and their wages lower than in other cities. This Sun is a great paper, and if it keeps this fight for the women up long enough it will do a great thing not only for the sewing women, but for all working women sand for all working women to organize themseives, requests The Sun to announce that the committee of the working women is meetings will be at Pythagoras Hall, 134 Canal street, this evening, for the purpose of giving information as to the practical steps to be taken to form labor organizations. On behalf of the committee she earnestly requests all women employed in the making of men's and women's clothing, underwear, cloaka, and similar goods, and all women factory operatives of whatever kind to be practical work of organizing will be the business of the meeting.

It is understood that the majority of the working the meeting.

tical work of organizing will be the business of the meeting.

It is understood that the majority of the women are inclined to prefer regular trade union organizations and that the larger part of their strength will go ultimately to the American Federation of Labor.

Two women, who don't want their names given, writing in behalf of "the girls employed in Thedore 1. Devinne's composing room." ask to contradict the statement which they say was made by Miss Ida M. Van Etten, in an interview printed in The Sun, that they work for less than men. They say that they receive the same price per 1,000 as the men, and when on time receive the same price per hour.

NEWARK ANARCHISTS.

They are Auxious to be Persecuted and Go

The Newark Board of Excise has revoked the license of Saloon Keeper Edward Willins, who permitted a lot of recently imported Rus ian Jews to hold a meeting in his hall last Sunday, where they indulged in flery speeches and found a great deal of fault with American nstitutions and laws.
The police have been making a quiet inves-

figation to form an idea of the number of Anarchists in Newark, and have found about 600 in all. The Anarchists are most numerous overs in the bakers' unions. One of these unions recently hired Union-Park Hall for a fall which is to be held next month. When the use of the hall was refused to the Anarchists on Friday evening last for na-expression of sentiments in regard to the Chicago franging some of the bakers were indignant, and announced that a boycott would be put upon all of the halls and parks under Mr. Beds Voigt's management.

A committee called upon Mr. Voigt and countermanded the order for the hall, and just after the committee left John Bastian, an Anarchist saloon keeper, called upon Mr. Voigt and insinuated that the boycott would be raised if Mr. Voigt would "lend" \$500 to the cause of labor. He said that the "workingmen" felt aggrieved, and something was necessary to heal their wounded feelings. Mr. Voigt refused to be blackmalled.

The Newark Anarchists' organ, the Arbeiter Zeitung, and editorially yesterday morning:

That is what we want-persecution. The more the letter. That is all that was missing. Suppress mean the was to fond of exhilarating beverages. in the bakers' unions. One of these unions

Zeifung, said editorially yesterday morning:
That is what we want-persecution. The more the
potter. That is ail that was missing. Suppress meetings, stop processions, take the red banners away,
arrest our leaders indict them, send them to prison,
any them if you want to, we do not care, since it has
secome an honor to die by your hands on the gallows.
Fools thou art. Every thinking man knows that the
men who are enforcing the laws of the American people are a lot of ignoramuses. They have not yet learned
from edi Europe that to persecute ouly helps the persecuted. This is Yankee stupidity. Thousands upon thouands are coming to this country to swell the ranks and
the more they are persecuted the more it will result in
their favor eventually. Therefore go on.

Baising Money for a Monument of the Grat-itude of the Colored People.

Arthur H. Harris, General Manager of the Lincoln Sailors' and Soldiers' Monumental Association, having canvassed this State to sesubscriptions for the new monument which the colored people hope to build next year, is now visiting the colored churches of year, is now visiting the colored churches of this city. He will spend two weeks here and in Brooklyn, getting pledges from the clergymen as to how much each church will give. A meeting was held Wednesday night at the Zion Baptist Church in Twenty-fourth street, at which Mr. Harris and the Rev. Mr. Jackson explained the plans of the enterprise.

The colored people hope, with the aid of a Congressional appropriation of \$200,000, to raise a fund of \$1.000,000 by next May. The site for the suggested monument is at Washington. The scheme embraces a central monument to the country and the sailors and soldiers in general. This is to be surrounded by monuments to the liberators of the race.

Some youngsters were akylarking near the Register's Office when Comstock was passing. A boy named John Flynn, about 10 years old, who lives at 39 Park street, ran near Comstock, and Comstock slapped him a severe blow in the face, knocking him down. A crowd collected and several policemen were soon present. Among those who witnessed the occurrence were several newspaper reporters, who denounced Comstock blow as an outrage. Comstock retorted with personal abuse, and said that the local struct another boys DEACON WRIGHT'S SUICIDE.

He was a man of nusterity and somewhat quar-

was a man of austerity and somewhat quarrelsome.

He occupied the upper part of his house. At haif past 7 yesterday morning the family living on the lower floor heard him fall heavily in his room, where they found him lying face downward, with a stream of blood flowing apparently from his mouth. Dr. Luck was summoned, and he turned the old man, who was already dead, over. He had cut his throat; the windpipe and jugular vein and carotid artery on the left side of the neck had all been severed. Just before committing the act he had been at work at his tailor's bench, and an untinished garment was on the bench, His rooms were in order and he was neatly dressed. The bloody razor with which he did the cutting was lying under his chest.

The peculiarities of the Deacon have made him so well known that his suicide caused great excitement in his neighborhood. Dr. Luck locked the door of his room after excluding all the numerous curiosity seekers, and turned the key of the door over to Coroner John dischwind. The Deacon lived alone and was 62 years old.

RULES OF THE ROAD AT SEA.

The United States May Call for an Inter-The Maritime Association is pushing its agitation for an international congress to determine upon changes in the "rule of the road," or the improvement of the signal service of vessels and steamships at sea. In a let-

vice of vessels and steamships at sea. In a letter to President Cleveland, President John P. Townsend of the Exchange says:

We respectfully recommend that the United States invite a conference of representatives of all maritimes at long to concert measures for the greater security of life and property at sea.

The inadequacy of the present international regulations is universally recognized. Fatal collisions too often occur, owing to the increased number, size, and speed of steamships. Many such accidents would be averted were steamers required to indicate, in fors, not merely their presence, as at present, but their direction. This can be arranged only through international conference, as each vessel is governed only by the laws of her own country.

Secretary Bayard suggests that a carefully prepared memorial, signed by the principal Chambers of Commerce and like bodies in this country, would be a convenient method of presenting the matter for the consideration and action of Congress.

District Attorney Martine said that he didn't

consider it necessary to bring the matter to the attention of the Grand Jury. He said that if Mr. Comstock wanted the Felegram prose-cuted the proper way was to bring the matter before a Police Court Justice and allow the publisher to have a chance to be heard in his own behalf.

Blast at Your Peril.

Mr. Harris said when he dismissed the disappointed congregation, was caught yesterday at the West End Hotel in Long Branch by two indignant brothers of Miss Jackson, who threatened to "jug" him if he did not return to Montelair and fulfi his obligations. He was badly scared, and protested that there had been some mistake, saying that he understood that Thursday was the wedding night, and that he was going to Montelair that evening. This did not satisfy Messra, Jackson, and they compelled Scott to put on his coat and go with them to Montelair. Etta met tiem at Newark and scoided her afflanced sharply. The whole party then proceeded to Montelair, where Mr. Feett was carefully guarded during the day by the Jackson brothers, and safely married to their sister last evening. Some of the Jackson family opposed the idea of bitting Mr. Scott nave Etta, after his scandalous conduct, but, in consideration of the magnificent scale on which the preparations had been made, they reluctantly withdrew their opposition rather than have the good things go to waste. ASSAULTED BY YOUNG RUFFIANS. Miss Jennie Davis's Narrow Escape from

Very Serious Injury. Miss Jennie Davis, a teacher in Public School No. 1 in Jersey City, complained to the police of that city yesterday of a gross outrage to which she was subjected on the previous day by a gang of hoodlums. Miss Davis attended a meeting of the Teachers' Association in the High School building in Bay street, and starred for home at 5½ o'clock. It was just getting dark. A gang of about a dozen boys were standing on the sidewalk at Grove and Bay streets, a block below the school, and as Miss Davis passed they greeted her with insulting remarks. Miss Davis paid no attention to the young rufflans until one of them threw his arms around her waist. Then she screamed and ran away. One of the rufflans threw a stone after her and it knocked her hat off her head. Without waiting to pick up the hat, Miss Davis, very much frightened, hurried to her bome. She complained to the police. None of the rufflans has as yet been arrested. tended a meeting of the Teachers' Association

When Your Nerves Bother You Invigorate them. When your night's repose is unsound or unrefreshing, your appetite jaded or capricious, when slight noises cause you to start, and annoyances of slight moment abnormally worry you, know three things, viz.: First, that your nerves are weak; second, that you need a tonic; third, that its name is Hostetter' Stomach Bitters, the promptest, safest, most popular article of its class. The nerves are susceptible of invigoration only by promoting an increase of vigor in the processes of digestion and invigoration. Narcotics and e-datives have their utility, but in the nain, and if their use be continued, they are unsafe. A wine glass of the Bitters before retiring, and a repetition of the same during the day before or after meals, is far more likely to confer health yielding sleep than repeated doses of an opiate. Dyspepsia, debility, inactivity of the kidneys and bladder, fever and ague, and other malarial complaints are always dominated and subdued by it.

A Reign of Disneter Following in the Wake of the Upturned Streets-Its Serious Nature and What Physicians Say Must Be Done to Counterget It.

For mouths the streets of New York have been recking with poisonous odors. These deadly gases have come from the exposed sewer pipes, gas pipes, and from the turned up soil saturated with malaria. Every breath drawn has carried some of these death serms into the body. At first the effect is only one of disgust at a diagreeable odor, but in a few days dull pains in the limbs, heaviness in the head, a tired feeling, lack of appetite, feverishness, and hundreds of other symptoms are certain to show themselves. They prove that poison has taken root and malaria is intrenched in the body. But the most important question to us all is how to pre-vent malarial disease, or, having contracted it, how it can be cured. Every one knows that the best physician can be cured. Every one knows that the cest physicians always prescribe a stimulant for such troubles. Nature must be assisted, and pure stimulants alone can do it. But nuless they are pure, instead of assisting, they will injure. Frot. Sterry A. Mott of this city says. The purity of Dufy's Fure Mait Whiskey As simple teems will readily, convinces should recommond it to the highest Or Wm. T. Cutter says: "Duffy's Pure Malt Whiskey contains no deleterious or injurious qualities, and its ab-

contains no deleterious or injurious qualities, and its absolute purity must recommend it to general use."

When the pulse beats feebly, when the life seems low, when pains shoot through the body and make existence a burden, do not take drugs. They cannot help you. Take a pure and life-imparting stimulant, and the only reliable one in the mayket is Justy's Furs Mait Whiskey. It has stood the test of years. It is more popular to-day it has sever. It will invariatly drive out maiarla, and it is the only known preparation that will. It is sold universally, but care should be exercised to take none but Justy's. For its popularity and power have raised up etemies, who try to aubstince inworthy and poisonous compounds in its place. "A word to the wise is sufficient."

Bruner & Moore Co., 41. 48, AND 45 WEST 14TH ST.

We would double and quadruple our trade in boys' and children's shoes could every parent of a boy know what value in shoe leather is given for a moderate price in either of our stores.

This price list hardly convevs the idea:

"YOUTHS" AND "BOYS" SHORS. Usual Price. Good School Shoes, sizes 11 to 2......\$1.75

Profit on boys' shoes is with us a secondary considerationa small profit covers the cost of handling that stock. We keep everything boys wear, and assume that satisfaction obtained in one department will suggest a trial of others, where we hope to merit your steady and ap-

preciative custom. Boys dislike overcoats as much as they like "reefers," and in this respect there is a growing inclination to humor the boys. Our stock of boys' "Pea Jackets" includes fur beavers, chinchillas, plain and fancy cheviots-with wool linings-very jaunty garmentsalike sensible and serviceable; prices \$5.00 to \$15.00.
